

EP-100

Powerful, but compact value counter

*Value Counting
Authenticating
Various Counting Modes
Dust Cover
Small Footprint
Minimize feeding trouble*

TBM 

EP-100 is a compact and powerful cash handling device. With small footprint and high economic feasibility, it can be installed even in a small teller's table and very limited space of exchange office. Simple and strong structure of EP-100 enables wide range of application, at the bank branches - from teller windows to back offices - , casinos, cash center, and exchange office, etc. Dust proof cover ensures less dust emission and less noise from the unit. The users can feel comfortable and free from anxiety of flying-out notes.

Various counting modes

- MIX mode:** Count mixed denominations
- DD mode:** Selectively count the notes having the same denomination.
- CNT mode:** Count only the number of notes.
- SORT mode:** Selectively count the notes having the same face and direction.
- SRL mode (Option):** Read serial number of the notes.

Improve authenticating feature

EP-100 adopted full infrared and UV (option) scanning, and magnetic sensor. With our state-of-the-art software and hardware technology, EP-100 improved counterfeit detection level.

Improve counting efficiency

EP-100 adopted color scanning technology with Contact Image Sensor, which improves recognition efficiency and minimize rejects.

Easy access entire note path

EP-100 is designed to allow easy access of entire note path with 2 opening covers, thus ensuring easy clearance of jamming and maintenance.

Technical Information

Hopper capacity	300 notes
Stacker capacity	200 notes
Reject capacity	100 notes
Speed	1000 / 800 npm
Note size	W: 120 ~ 180 mm H: 60 ~ 90 mm
Note thickness	0.08 ~ 0.12 mm
Power	100~240VAC, 50/60Hz
Power consumption	50W
Weight	Approx. 7.6Kg
Dimension
